Flies drink 4 cups of horse blood every 10 days.¹

Don’t let them feast. With each bite, the risk of transmitting disease increases. Stop ticks, flies, gnats and mosquitoes before they start with UltraShield® EX. Its sun, sweat and water-resistant formula kills and repels them for up to 17 days.

OSPHOS® (clodronate injection)

Bisphosphonate. For use in horses only.

Brief Summary (For Full Prescribing Information, see package insert)

CAUTION: Federal (USA) law restricts this drug to use by or on the order of a licensed veterinarian.

DESCRIPTION: Clodronate disodium is a non-amino, chloro-containing bisphosphonate. Chemically, clodronate disodium is dichloromethylene diphosphonic acid disodium salt and is manufactured from the tetracyclate form.

INDICATION: For the control of clinical signs associated with navicular syndrome in horses.

CONTRAINDICATIONS: Horses with hypersensitivity to clodronate disodium should not receive OSPHOS.

WARNINGS: Do not use in horses intended for human consumption.

WARNING: Side effects may occur with the use of OSPHOS. Use must be approached with caution and renal function should be monitored.

HUMAN WARNINGS: Not for human use. Keep this and all other drugs out of the reach of children. Consult a physician in case of accidental human exposure.

PRECAUTIONS: As a class, bisphosphonates may be associated with gastrointestinal and renal toxicity. Sensitivity to drug associated adverse reactions varies with the individual patient. Nephro and gastrointestinal adverse reactions may be associated with plasma concentrations of the drug. Bisphosphonates are excreted by the kidney. Therefore, conditions causing renal impairment may increase plasma bisphosphonate concentrations resulting in an increased risk for adverse reactions. Concurrent administration of other potentially nephrotoxic drugs should be approached with caution and renal function should be monitored. Use of bisphosphonates in patients with conditions or diseases affecting renal function is not recommended.

Administration of bisphosphonates has been associated with abdominal pain, discomfort, and agitation in horses.

Clinical signs usually occur shortly after drug administration and may be associated with alterations in intestinal motility. In horses treated with OSPHOS these clinical signs usually began within 2 hours of treatment. Horses should be monitored for at least 2 hours following administration of OSPHOS.

Bisphosphonates affect plasma concentrations of some minerals and electrolytes such as calcium, magnesium, potassium, and phosphorus, immediately post-treatment, with effects lasting up to several hours. Caution should be used when administering bisphosphonates to horses with conditions affecting mineral or electrolyte homeostasis (e.g. hypocalcemic periodic paralysis, hypokalemia, etc.).

The safe use of OSPHOS has not been evaluated in horses less than 4 years of age. The effect of bisphosphonates on the skeleton of growing horses has not been studied, however, bisphosphonates inhibit osteoclast activity which impacts bone turnover and may affect bone growth.

Bisphosphonates should not be used in pregnant or lactating mares, or mares intended for breeding. The use of OSPHOS has not been evaluated in breeding horses or pregnant or lactating mares. Bisphosphonates are incorporated into the bone matrix, from where they are gradually released over periods of months to years. The extent of bisphosphonate incorporation into adult bone, and hence, the amount available for release back into the systemic circulation, is directly related to the total dose and duration of bisphosphonate use. Bisphosphonates have been shown to cause fetal developmental abnormalities in laboratory animals. The uptake of bisphosphonates into fetal bone may be greater than into maternal bone creating a possible risk for skeletal or other abnormalities in the fetus. Many drugs, including bisphosphonates, may be excreted in milk and may be absorbed by nursing animals.

Increased bone fragility has been observed in animals treated with bisphosphonates at high doses or for long periods of time. Bisphosphonates inhibit bone resorption and decrease bone turnover which may lead to an inability to repair micro damage within the bone. In humans, abiptal femur fractures have been reported in patients on long term bisphosphonate therapy; however, a causal relationship has not been established.

ADVERSE REACTIONS: The most common adverse reactions reported in the field study were clinical signs of discomfort or nervousness, colic and/or pawing. Other signs reported were lip licking, yawning, head shaking, injection site swelling, and hives/pruritus.

As with all drugs, side effects may occur. In field studies and post-approval experience the most common side effects reported were signs of discomfort, nervousness, and colic. Other signs reported were: renal insufficiency/failure, anorexia, lethargy, hypercalcemia, behavioral disorders, hyperkalemia, hyperactivity, recumbency, hyperthermia, injection site reactions, muscle tremor, urticaria, hyperglycemia, and fracture. In some cases, death has been reported as an outcome of these adverse events. The safe use of OSPHOS has not been evaluated in horses less than 4 years of age or breeding horses. OSPHOS should not be used in pregnant or lactating mares, or mares intended for breeding. NSAIDS should not be used concurrently with OSPHOS. Concurrent use of NSAIDS with OSPHOS may increase the risk of renal toxicity and acute renal failure. Use of OSPHOS in patients with conditions affecting renal function or mineral or electrolyte homeostasis is not recommended. Refer to the prescribing information for complete details or visit www.dechra-us.com.

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

The Leading Lady Grand Prix Rider Award
Sponsored by Adi Kissilevich

Each FEI week, in an award presentation following the Grand Prix, the high score female rider for that week will be awarded a prize for earning the Leading Lady Grand Prix Rider Award. The weekly Leading Lady will be calculated based on the Horseware Welcome Stakes and Grand Prix. Results for each Horseware Welcome Stakes will be converted to points based on the number of riders in the competition plus one; results for each Grand Prix will be converted to points based on the number of riders plus one and doubled. Riders will earn points on their highest placing horse. The cumulative highest scoring lady rider will be presented with the Overall TIEC Leading Lady Grand Prix Rider Award on Saturday October 26, and will receive an additional prize.

For FEI class information, entry fee and class specifications see FEI section definite schedules at www.fei.org. The FEI Definite Schedule supersedes any information regarding FEI classes/competitions that is printed in this prize list.

FEI COMPETITORS IMPORTANT INFORMATION

Exhibitors are responsible for having their Federations declare their horses for the FEI competition BEFORE the close of entries as listed in the FEI Definite Schedule each week. Definite entries must be made to your Federation by the Thursday prior to the competition week unless otherwise stated in the Schedule. This Federation weekly declaration is the automatic nomination into the Jog. The Horse Show Office will determine the entries for each and every FEI week based solely off of the Definite Entries submitted on the FEI Entry System for that week. The athlete must manually withdraw any horse he/she does not plan to show before the jog to avoid paying the Late Withdrawal Fee as indicated in the FEI Schedule. Proper entries and withdrawals in the Jog are the sole responsibility of the athlete. We ask that you only declare the number of horses that are allowed each week. We will allow substitutions made by Federations up until 1 hour prior to the Jog/Horse Inspection.

Class Declarations must be done in the Horse Show Office each week on an official Add/Scratch sheet no later than 4:00pm the day before the class is held unless otherwise noted. Declarations made after that time may be accepted by Management only and, if accepted, will result in that horse going first in the order (draw) in the competition in question.

FEI STABLING: Please notify the Stabling Office each week BEFORE the Jog/Horse Inspection/stabling time to secure your stall location. FEI Entry Fee includes one stall. Additional FEI stalls, if available, are $300.00 per additional stall per week. Stables will be open to receive horses per the FEI Definite Schedule. All horses being admitted to FEI Stabling must be accompanied by a current temperature slip and Passport. Any early arrivals must be approved by the Stabling Manager. All horses living in FEI stabling, whether showing or not, must obey all FEI Rules.

FEI JOG: Unless stated otherwise in the FEI Definite Schedule, the Jog/Horse Inspection will take place on Tuesdays at 12:00pm in the FEI area. Any changes to the FEI Jog/Horse Inspection will be posted in the FEI area and the Horse Show Office. Both horse and rider must be current FEI members in order to present at the Jog/Horse Inspection.

Credentials are required for entrance to the FEI Compound at all times. Credentials are signed out by the FEI Office in the FEI Compound. Five passes will be issued per horse: Rider (1), Trainer of record signing the entry blank (1), Groom (1), and Owner of record as listed in the passport (2).

FEI HORSES MAY NOT COMPETE IN NATIONAL COMPETITIONS AND INTERNATIONAL COMPETITIONS DURING THE SAME EVENT. (See FEI Jumping Rules, Annex VI for exceptions.)
